Social Work Fieldwork Placement

Explanatory Notes on Student Evaluation Report

Introduction

This Evaluation Report sets down, specifically and comprehensively, expectations on the student's performance in fieldwork practice. Students are assessed on their ability in four areas of competence which are necessary for becoming a professional social worker. They include: 1) Professional Requirements, 2) Organization Requirements, 3) Practice Competency, 4) Written Assignment and Use of Supervision.

From 2023 onward, there are separate evaluation reports for BSW and MSW students. The evaluative criteria of each assessment section are very similar for BSW and MSW reports, just with some different criteria designated for MSW students. Further, there are different assessment ratios for the four areas for Fieldwork Placement I and II as to differentiate the expectation on first and second placement.

For the first placement, the assessment ratio will be set as follow:

Section One: Professional Requirements (25%)

Section Two: Organizational Requirements (15%)

Section Three: Practice Competency - Integration of KNOWLEDGE, ATTITUDE and SKILL (40%)

Section Four: Written Assignment and Use of Supervision (20%)

For the second placement, the assessment ratio will be set as follow:

Section One: Professional Requirements (25%)

Section Two: Organizational Requirements (10%)

Section Three: Practice Competency - Integration of KNOWLEDGE, ATTITUDE and SKILL (50%)

Section Four: Written Assignment and Use of Supervision (15%)

Assessing student performance in fieldwork

In assessing the student's performance, both the "efforts" and "ability" indicated in the field placement are recognized. Consideration should be given to whether the student is doing a first or a second placement; the complexity of the assignments, and the placement setting. If the fieldwork supervisor is clear that the student's performance in specific tasks has been affected by setting constraints over which the student has limited control, the fieldwork supervisor may consider giving the student a more generous rating for those particular tasks. The recommended grade should reflect the student's performance all through the placement period.
